

KT800 Industrial Dehumidifier

NEMEKS-KT800

Technical specifications

Specification	Value
Dehumidification capacity	150 L / 24 h
Suitable volume	Approx. 800 m ³ after water damage; approx. 1,600 m ³ for general dehumidification
Operating temperature	0-40 °C
Operating humidity range	35-100% relative humidity
Airflow	940 m ³ /h
Electrical connection	230 V / 50 Hz
Maximum power	2.4 kW
Sound level	60 dB(A) at 3 m
Weight	70 kg
Standard / options	Hour meter and air filter standard; hygostat and condensate pump optional
Dimensions	585 × 630 × 1,020 mm

Application areas	Selection note	CE
Post-flood drying, storage, archive and general humidity control.	Dehumidification capacity should be verified against target humidity, temperature and condensate drainage.	

Technical values are compiled from current Nemeks product information. Application conditions, capacity and site infrastructure must be verified before the project.
